

Building your network

A Werk It Girls worksheet

Map who's in your corner — and where the gaps are.

How to use this worksheet

Your network isn't one thing. It's made up of different kinds of relationships, each serving a different purpose. Some people keep you grounded. Some open doors. Some expand your perspective. Some grow because of you.

This worksheet helps you see your network clearly — who's in it, where it's strong, and where it needs attention.

Three steps

1. Write 3–5 names in each quadrant.
2. Circle the ones you consider strong.
3. For everything not circled — or any quadrant with gaps — write one move you can make to strengthen or fill it.

The four quadrants

ANCHOR — *Who keeps you sharp and grounded*

Trusted peers, straight-shooters, close collaborators. These are the people who challenge your thinking, give honest feedback, and build better ideas with you.

ELEVATE — *Who pulls you into rooms*

Sponsors, decision-makers, influencers. These are the people who open doors you can't, put your name in the room, and provide access to critical insight.

EXPAND — *Who connects you to what's next*

Underused connections, outside experts, clients and prospects. These are the people who broaden your perspective, identify emerging opportunities, and plug you into new circles.

MULTIPLY — *Who grows because of you*

Mentees, future leaders, community connections. These are the people who expand your reach, enhance your reputation, and build your future network.

Reflection

Where are your gaps? What's one step to fill them?

If an opportunity came up tomorrow... who would make a call for you?
